Hardy Perennial Plants

The well arranged Perennial Garden, of whatever size it may be will bring joy and gladness, all through the spring and summer as you admire the many changes, in shapes, in hues and colors and the gorgeous creations of nature. They are with you each year. However, as we expect best results from our vegetable garden when it has been well cared for, so in the flower garden. Plants may be set in fall by October 1st or sooner, on such stock as Iris and Peonies. The earliness of the season depends on weather and soil conditions.

The list we offer represents the best and hardiest varieties.

You are invited to visit the Nursery, any time during the flower season, and see them in bloom. A good way to select your flowers.
